

# Technology for a **Better** **Tomorrow.**

We drive your business forward with sustainable technology that respects the planet and readies you for the future.

## COMPANY OVERVIEW

# Unifying Scale & Intelligence.

anuLink is a technology company delivering secure, scalable, and innovative IT solutions that help businesses build, transform, and grow.

We combine technology, engineering, and strategic thinking to create digital solutions that solve real business challenges. From modern websites and custom software to enterprise technology solutions, we help organizations turn ideas into reliable digital experiences.

WEB DEVELOPMENT

# Modern Websites for Your Business Growth.

We engineer fast, accessible, and conversion-focused websites that establish a commanding digital presence. Built on modern web standards with precision craftsmanship, seamless responsiveness, and zero bloat.

STARTING PACKAGE

€590 net

FLAGSHIP

STANDARD PACKAGE

€1,190 net

WHAT WE BUILD

Business Websites

Consultancies & Service Firms

Corporate Platforms

Multi-page Enterprise Reach

Landing Pages

Campaign & Lead Engines

Portfolio Studios

Architects & Creatives

E-Commerce Shops

Frictionless Fast Checkout

Custom Web Apps

Portals, Tools & API Sync

WHAT YOU GET (DELIVERABLES)

Responsive Design

Flawless on smartphones, tablets & 4K displays.

Up to 5 Pages

Complete core foundational architecture.

Modern Clean UI

User-centric layout focused on brand prestige.

Spam-Free Forms

Secure lead capture routed straight to inbox.

Technical SEO

Semantic HTML5, meta tags & automated sitemap.

Sub-Second Speed

95+ Google Core Web Vitals for fast loading.

CORE WEBSITE STRUCTURE (INCLUDED)

01

HOME

Value proposition, highlights & primary CTA

02

ABOUT US

Company story, mission, team & client trust

03

SERVICES

Transparent capabilities, packages & process

04

CONTACT

Inquiry form, direct contacts & response pledge

05

CHOICE PAGE

Portfolio, Case Studies, FAQ or Blog

MODULAR ADD-ONS & EXTENSIONS

Customize your website package with powerful extras tailored to your commercial goals:

Extra Pages

Custom page layouts

Blog / CMS

Editorial posting system

Payment Gateway

Stripe, PayPal & Pay

Booking System

Automated scheduling

Advanced SEO

Schema & local ranking

Custom Motion

Interactive UI animations

Portal & Auth

User accounts & gated docs

CRM & API Sync

HubSpot & webhooks

BUILT FOR

Multi-Device Responsive

Works on all devices & screens

100% GDPR Compliant

European data security & SSL

Scalable Architecture

Grows with your business

SEO & Conversion Ready

Optimized for Google rankings

Sub-Second Performance

Ultra-fast, zero bloat delivery

APP DEVELOPMENT

# Mobile Applications Built for Seamless Growth.

We design and engineer high-performance mobile applications that connect with customers, streamline operations, and deliver seamless digital experiences across iOS and Android. Built with modern architectures and zero bloat.

## WHAT WE BUILD

### Business Apps

Internal Operations & Management Portals

### Customer Apps

Loyalty, Rewards & Client Engagement

### E-Commerce Apps

Frictionless Checkout & Push Promotions

### Booking Apps

Scheduling, Slots & Calendar Sync

### On-Demand Services

Live Tracking & Real-Time Dispatch

### Custom Mobile Apps

Proprietary Workflows & API Ecosystems

## WHAT YOU GET (DELIVERABLES)

### Tailored Mobile UI

Crafted to Apple HIG & Material Design 3.

### iOS & Android Codebase

Unified cross-platform performance & single stack.

### API & Cloud Integration

Secure REST, GraphQL & database synchronization.

### Biometric Authentication

FaceID, TouchID & secure encrypted session tokens.

### Push Notification Engine

Automated alerts, updates & segmented campaigns.

### 60 FPS Performance

Silky frame rates, low battery drain & fast launch times.

## CORE MOBILE APP ARCHITECTURE (INCLUDED)

### ONBOARDING

Brand introduction, value preview & permission flows

### AUTHENTICATION

Biometric login, Social & secure token access

### HOME DASHBOARD

Central activity feed, metrics & primary actions

### ACTION FLOWS

Interactive catalog, booking & checkout pathways

### PROFILE & SETTINGS

Account preferences, alerts & support channels

## MODULAR ADD-ONS & EXTENSIONS

Customize your mobile app with powerful modular additions tailored to your commercial goals:

### In-App Payments

Apple Pay, Google & Stripe

### Calendar Booking

Automated scheduling

### Push Engine

Smart alerts & promos

### Social / OTP Auth

Google, Apple & SMS

### In-App CMS

Dynamic content updates

### Third-Party APIs

Maps, GPS & webhooks

### App Store SEO

ASO & funnel analytics

### Admin Dashboard

Web management console

## BUILT FOR

### iOS & Android Native Feel

Platform-specific touch ergonomics

### 100% GDPR & Biometric Auth

Encrypted storage & token security

### Scalable Cloud Architecture

Grows effortlessly with user load

### App Store & Play Console Ready

Full submission & review guidance

### 60 FPS Smooth Performance

Ultra-fast, zero bloat execution

UI/UX DESIGN

# Intuitive Interfaces Designed for People & Growth.

We craft intuitive, engaging, and goal-driven digital experiences that users love and businesses grow with. From initial user journey mapping to comprehensive design systems, we build interfaces that combine aesthetics with commercial performance.

STARTING PACKAGE

€790 net

STANDARD PACKAGE

€1,590 net

FLAGSHIP

## WHAT WE DESIGN

### Website Design

Responsive Layouts & Brand Credibility

### Mobile App UI

Tactile iOS & Android Touch Ergonomics

### Web Applications

Complex Platforms & Product Interfaces

### SaaS Dashboards

Data Analytics & Actionable Clarity

### Design Systems

Reusable Tokens & Component Libraries

### Figma Prototypes

Clickable Flows & Usability Testing

## WHAT YOU GET (DELIVERABLES)

### User Journey Mapping

Evidence-based UX flows & mental model alignment.

### Clickable Prototypes

Realistic Figma prototypes for testing & validation.

### Information Architecture

Content structure, hierarchies & intuitive navigation.

### Scalable Design System

Atomic components, variants & global design tokens.

### Conversion Wireframes

Structural blueprints focused on reducing user friction.

### Developer Handoff Pack

Annotated CSS specs, tokens & export-ready SVG assets.

## 5-PHASE UI/UX DESIGN METHODOLOGY (INCLUDED)

### DISCOVER

Business goals, user research, personas & competition

### DEFINE

Information architecture, user flows & friction elimination

### DESIGN

Wireframes, visual hierarchy, typography & pixel-perfect UI

### PROTOTYPE

Interactive clickable flows, usability testing & validation

### HANDOFF

Design tokens, production assets & annotated dev handoff

## MODULAR ADD-ONS & EXTENSIONS

Customize your design package with specialized design modules tailored to your product:

### Brand Identity

Logos, colors & styles

### Icon Systems

Custom SVG vector sets

### Lottie Motion

Micro-interactions & motion

### UI Kit / Tokens

Auto-layout & variants

### Usability Testing

Moderated feedback labs

### UX Audit

Heuristic review & roadmap

### Dark Mode

High-contrast dark themes

### Multilingual UI

RTL & localized flows

## DESIGNED FOR

### WCAG 2.1 AA Accessibility

High contrast & inclusive usability

### 100% Developer-Ready Handoff

Annotated CSS specs & tokens

### Scalable Component Tokens

Figma auto-layout 5.0 architecture

### High-Converting UX Flows

Frictionless paths to conversion

### Cross-Platform Consistency

Unified output across Web & Mobile

## AI INTEGRATION

# Practical AI Solutions Engineered to Automate & Scale.

We integrate practical AI capabilities into websites, applications, and business workflows to help organizations automate repetitive tasks, improve decision-making, and create smarter digital experiences with measurable business ROI.

### WHAT WE BUILD

#### AI Chatbots

24/7 Customer Support & Smart Lead Discovery

#### Generative AI

Dynamic Copy & Smart Summaries

#### Smart Features

Predictive Logic & In-App Intelligence

#### Vector Search

Semantic Retrieval & Instant Data Indexing

#### Auto Pipelines

Autonomous Multi-App Zero-Manual Flows

#### Custom RAG & LLMs

Enterprise RAG & Private LLM Stacks

### WHAT YOU GET (DELIVERABLES)

#### Direct AI API Setup

OpenAI, Claude, Gemini & Mistral gateway connections.

#### Context-Aware Chatbots

Embeddable widgets trained on proprietary docs & FAQs.

#### Document & OCR Engine

Automated parsing & JSON data extraction from invoices & PDFs.

#### Intelligent Vector Search

Sub-second semantic search across catalogues & docs.

#### Autonomous Pipelines

Multi-app n8n & webhook flows eliminating manual admin.

#### CRM & Helpdesk Sync

Bi-directional lead enrichment & triage in HubSpot & Salesforce.

### 5-STEP AI WORKFLOW ARCHITECTURE BLUEPRINT

#### INPUT LAYER

Inquiries, raw PDFs, tickets & automated system events

#### PROCESSING

Sanitization, tokenization & vector embedding lookup

#### REASONING

Semantic parsing, intent triage & structured inference

#### AUTOMATION

Downstream triggers, CRM sync & instant state updates

#### DELIVERY

Verified natural responses & structured JSON payloads

### MODULAR ADD-ONS & EXTENSIONS

Customize your AI integration with specialized enterprise modules tailored to your operations:

#### Custom Chatbot

Proprietary FAQ training

#### Knowledge Sync

Google Drive & Notion sync

#### OCR Intelligence

Invoice & tabular parsing

#### Voice AI Agent

Speech-to-text assistants

#### Vector Indexing

Multi-million row retrieval

#### Full RAG Pipeline

Hybrid search reranking

#### Autonomous Flows

Multi-step n8n & Make logic

#### Guardrails Suite

Token cost & rate caps

### BUILT FOR

#### 100% GDPR & EU Data Privacy

European sovereign residency

#### Cost & Token Guardrails

Strict budget caps & zero shock

#### Sub-Second Latency Response

Streamed tokens & fast caching

#### Multi-Model Redundancy

Auto-fallback: OpenAI, Claude, Mistral

#### High Precision Enterprise RAG

Hallucination-free citations

## CLOUD SERVICES

# Scalable Cloud Systems Built for Resilience & Growth.

We help businesses build, migrate, and manage secure, reliable, and cost-effective cloud environments that scale seamlessly. From multi-cloud provisioning and Kubernetes to automated disaster recovery and 24/7 monitoring, we engineer foundations you can count on.

## STARTING PACKAGE

**€790** net

## STANDARD PACKAGE

**€1,590** net

FLAGSHIP

## WHAT WE BUILD

**Cloud Setup**

Multi-Cloud Config &amp; Stack Tailoring

**Cloud Migration**

Zero-Downtime Lift &amp; Database Cutover

**Auto-Scaling Host**

Elastic Auto-Scale &amp; High-Load Clusters

**Backup & Recovery**

Off-Site Snapshots &amp; Point-In-Time Drills

**24/7 Monitoring**

Real-Time Observability &amp; Instant Alerting

**Zero-Trust Security**

Network Isolation &amp; Automated Compliance

## WHAT YOU GET (DELIVERABLES)

**Multi-Cloud Setup**

Complete environment across AWS, GCP, Azure &amp; Hetzner.

**Encrypted Storage**

S3-compatible buckets &amp; fast persistent network disks.

**Docker & Containers**

Zero-downtime rolling updates &amp; blue-green releases.

**Automated CI/CD**

GitHub Actions &amp; GitLab CI for safe automated releases.

**Managed DB Clusters**

PostgreSQL, MySQL &amp; Redis with automated replicas.

**Disaster Recovery**

Cross-region daily backups &amp; rapid automated failover.

## 5-PHASE CLOUD INFRASTRUCTURE ARCHITECTURE BLUEPRINT

**ASSESS**

Workloads, traffic spikes &amp; bottleneck evaluation

**ARCHITECT**

Cloud topology, multi-zone &amp; budget boundaries

**DEPLOY**

Terraform IaC provisioning &amp; reproducible rollouts

**SECURE**

Zero-Trust IAM, firewalls &amp; TLS 1.3 encryption

**MONITOR**

Live observability, health &amp; cost optimization

## MODULAR ADD-ONS &amp; EXTENSIONS

Customize your cloud infrastructure with specialized enterprise modules tailored to your operations:

**Multi-Cloud**

AWS, GCP &amp; Azure migration

**Kubernetes**

EKS, GKE &amp; K3s clusters

**Edge CDN**

Cloudflare &amp; CloudFront

**Serverless**

AWS Lambda &amp; API gateways

**WAF & DDoS**

Enterprise bot protection

**Zero-Trust VPN**

WireGuard isolated VPCs

**Observability**

Grafana &amp; Prometheus

**FinOps Audit**

Monthly cloud cost reduction

## BUILT FOR

**99.9% High Availability Uptime**

Multi-zone auto-scaling redundancy

**100% GDPR & EU Data Residency**

German &amp; European cloud nodes

**Automated Disaster Recovery**

Daily snapshots &amp; verified failover

**Zero-Trust Security & TLS 1.3**

Principle-of-least-privilege IAM

**Predictable FinOps Costs**

Elimination of orphaned cloud assets

SOFTWARE TESTING & QA

# Flawless Software QA Engineered for Zero Defects.

Eliminate defects, security vulnerabilities, and performance bottlenecks before they reach your users. We deliver comprehensive automated and manual testing pipelines engineered for rock-solid reliability, cross-device fidelity, and continuous delivery.

Cost Optimization, AWS, Azure & Sovereign Data

### Tech Due Diligence

Code Quality Audits for Investors & M&A

### Agile Delivery Cycles

Engineering Ergonomics, CI/CD & DORA Metrics

## WHAT YOU GET (DELIVERABLES)

### Architecture Blueprint

Visual system component maps & technical stack diagrams.

### Risk & Debt Register

Inventory of vulnerabilities & remediation costs.

### FinOps Cost Modeling

Transparent projections for compute, storage & SaaS.

### Tech Decision Matrix

Framework & cloud provider trade-off comparisons.

### 12-Month Roadmap

Phased milestone checkpoints & resource allocations.

### Board-Ready Slide Deck

Executive deck summarizing business case ROI & rationale.

## 5-STAGE STRATEGIC CONSULTING & ADVISORY BLUEPRINT

### DISCOVERY

Stakeholder workshops, goals & system pain point intake

### AUDIT

Codebase profiling, security & architecture evaluation

### BLUEPRINT

Target state diagrams, tech stack & risk matrix design

### ROADMAP

Actionable execution plans, milestone phases & budgets

### GOVERNANCE

Fractional CTO steering, vendor vetting & agile review

## MODULAR ADD-ONS & EXTENSIONS

Easily expand your strategic engagement anytime with specialized advisory modules:

### Fractional CTO

Executive tech steering

### ISO 27001 & SOC 2

Security compliance roadmaps

### Cloud FinOps Audit

AWS & Azure cost reduction

### AI Feasibility & POC

GenAI architecture validation

### High-Load Scalability

Failover & caching layers

### Vendor RFP Oversight

Agency vetting & interviews

### Database Migration

SQL monoliths to distributed

### DevOps & CI/CD

Pipelines & DORA metrics

## BUILT FOR

### 100% Vendor-Neutral Advice

Pragmatic engineering without bias

### Strict GDPR & EU Compliance

European sovereign data standards

### Defensible C-Level Clarity

Clear ROI models & executive decks

### Actionable 12-Month Plans

Phased sprints with realistic budgets

### Direct Senior Architect Access

Workshops with principal engineers

## SOFTWARE MAINTENANCE & 24/7 SUPPORT

# Software & IT Support, Fast & Always Online.
